

MJ-21020

Series 3 Shredder

Model #	21020
Motor HP	20
Voltage Options	208V, 230V, 460V
Shred Width	5/16"
Throughput (lbs./hour)	2000
Cutting Chamber	15" x 15"
Options	Custom cutter configurations, Lockable waste chamber, Infeed and outfeed conveyors

Our marijuana waste shredders are capable of processing marijuana, cannabis and hemp plant waste (wet or dry), other vegetative plants, plant root balls, stems, stalks and leaves, rockwool, pots and containers. Available in 1HP to 20HP configurations and fully customizable for your specific application, our shredders are the ideal solution for your medical plant waste disposal needs. All our shredders include the following features:

- **High Torque, Heavy Duty Drive Package:** Ensures less down time & quieter operation than other destruction methods with ZERO emissions.
- **Auto Shaft Reversal:** Improves reliability by preventing overfeeding and protects against damage from non-shreddable objects.
- **Bearing Protection:** Shredded contaminants are prevented from reaching the bearings through the use of false walls and seals.
- **Individual Cleaning Fingers:** Reduces wrapping and debris packing between the cutters, while being easy to remove and adjust.
- **Custom Layouts:** System engineers will work to ensure the shredder and any additional equipment fit seamlessly into your system.
- **Indoor/Outdoor Rated:** Our shredders are designed and built with all the necessary features and components to deliver maximum performance and reliability for inside or outside applications.
- **Powder Coat Finish:** Powder coated finishes are far more durable than painted finishes.
